

PANELIST BIO

JENNIFER PALINCHIK

Jennifer Palinchik, BSBME, MBA, is President of JALEX Medical, LLC. The company is located just outside of Cleveland, OH and provides Medical Device Design and Regulatory Consultation services to companies, hospitals, and surgeon inventors seeking entrance into the Medical Device Market.

She brings over 15 years of experience in the field, specializing in design and development and regulatory affairs activities. Under her leadership, the company has experienced year over year growth and has achieved a significant amount of device clearances thru the Food and Drug Administration (FDA).

Earlier in her career, she performed artificial pancreas and kidney stem cell research for animal studies and clinical trials. She is an active member in regional organizations that promote biomedical and healthcare in Northeast Ohio, has been a guest speaker at conferences for the medical industry, and has been featured in several local and national publications.

She holds a Bachelor of Science in Biomedical Engineering degree from the University of Toledo and a Master in Business Administration in Executive Management degree from Ashland University.
