

SPEAKER BIO

LYNN LEON

Lynn is a Career Specialist at Cleveland State University and has been with the university for a year. Prior to coming to CSU, she had the experience of working with students in Career Services at Cuyahoga Community College where she worked for over 7 years. Lynn had the unique opportunity to start the Career Services department at Westshore Campus in Westlake, and also worked with students at the Metro Campus downtown. Lynn's 20+ years of career experience has included primarily working for Fortune 500 companies in Human Resources as well as in the Financial Services industry. This unique perspective allows her to offer a valuable expertise to her students, since she has experience working on the "other side of the desk" as it were. She enjoys sharing tips on interviewing and professional presence coaching that she has gained over the years from her own experience in recruiting, interviewing, and training.

Lynn enjoys coaching students and helping them to navigate the career search process. She also enjoys connecting students to other on-campus resources and encourages them to get as involved as possible! She really enjoys it when students and alumni reach back out to her to share their success stories when they are hired as a co-op, intern, or into a permanent position.

Lynn earned the Global Career Development Facilitator (GCDF) credential and is a Certified Professional Resume Writer (CPRW).
